

## US Stock Market Cycles- Nasdaq Main Cycle (Article 2)

The Nasdaq first trading date is **Feb 8, 1971 at 10:00 NY.**

**The Asc** for this chart is **2 degrees Taurus**

**The MC** for this chart is **17 degrees 34 Capricorn.**

To calculate the Focus degree of this chart we have to **add 90 degrees to the MC**  
Which is **17 degrees 30 Aries.**

Then we have to calculate the Midpoint between this degree and **the Asc.**

This new degree is around **25 degrees in Aries- The main Focus degree of the Nasdaq.**

### 1982-The Beginning Of The Bull Market In Relation To The Nasdaq Main Cycle.

**1982** considered to be the beginning of the upside trend of the US stock market.

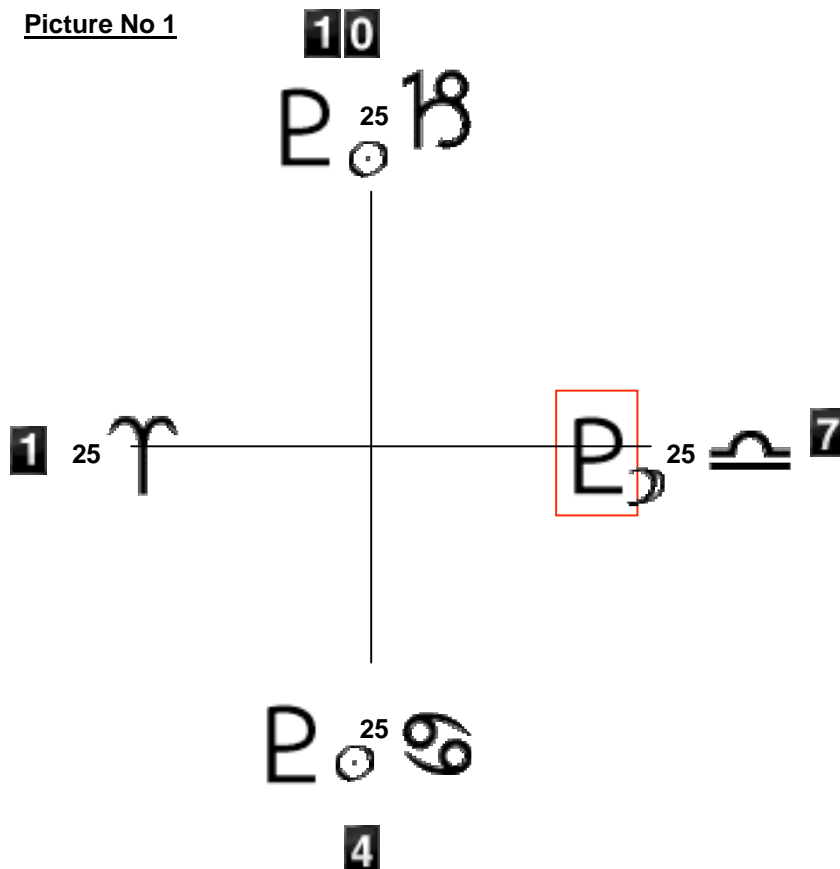

During this year **Pluto** was crossing **25 degree in Libra.**

As it is a **Day chart**, **Pluto** is **Lunar** at the **7<sup>th</sup> house Focus degree.**

**By that, the Solar energy of Pluto** is effecting in ninety degrees to the **25 Cancer-Capricorn axis.**

**This Solar transit to 4-10 axis is a major factor for this upside trend. (See Picture No 1)**

Picture No 1

## 2000 – The Nasdaq Fall Begins

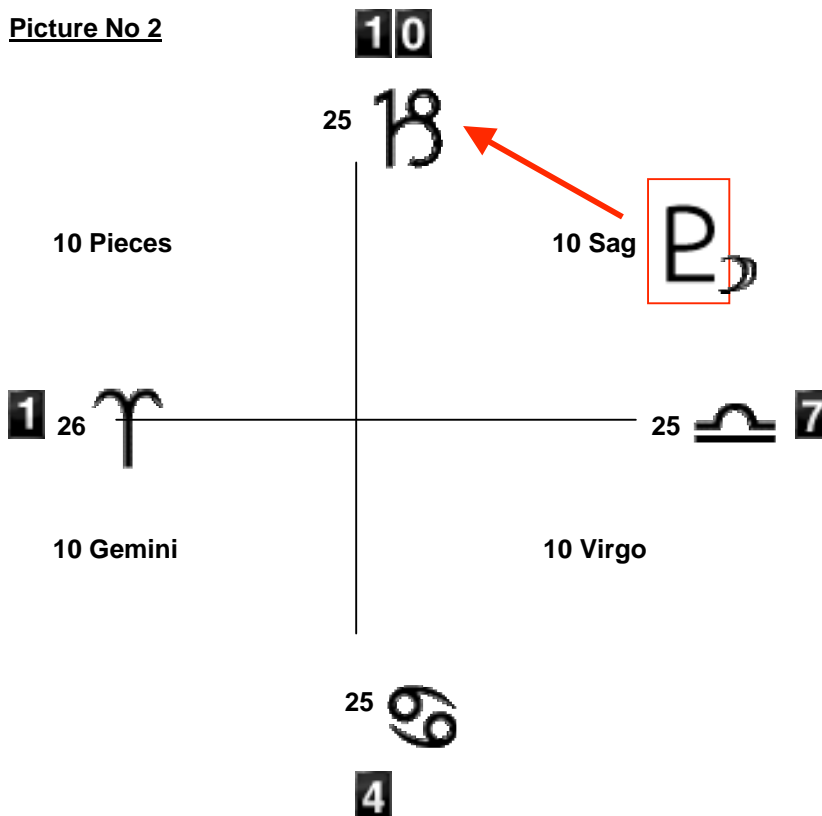

During 2000 Pluto completed 45 degrees from 25 Libra to 10 Sag.

This is a major change factor that effects this **Focus degree cycle** dramatically

**Lunar Pluto** is changing phase and making **45 degrees aspect** to the **10<sup>th</sup> house degree**.

(See Picture No 2)

Picture No 2

## What Is Coming Ahead On That Cycle

Uranus at 10 Pieces during 2005-2006 helping the Nasdaq recovery process.

As it is a Lunar Uranus in 45 aspect to the 1<sup>st</sup> house degree, this is a positive influence.

During 2007 Jupiter is staying at 10 Sag for 2 Mounth – July and August and as it is a Solar Jupiter making 45 aspect to the 10<sup>th</sup> house degree, it can be consider as a positive Influence.

However, It is not the only important cycle for the US Stock Market.

There is an important cycle at 26Virgo30 and Pluto at 26 Sag now is negative for the stock Market.

By that, any daily transit on 11-26 degrees will influence the market in a negative way.

For example, Mars at 11 Taurus on July 10, 2007 activates this cycle and the market went Down.
