New astrologic theory: The Theory of Relativity

– by Gilbert Tjoernum

The Theory of Relativity is developed by one of the pioneers in Danish astrology, Gilbert Tjoernum. Through his tireless work within astrology for more than 50 years, he has developed a new way of

looking at the horoscope. The theory can be used within all astrologic disciplines – including business and financial astrology.

Education

– by Karen Boesen

Karen Boesen

We get quite a few enquiries about education at all levels within our line of business. If any of you offer education and/or courses of any kind within business or financial astrology, you are welcome to send the material to us. We will then publish it at the ISBA website along with the material already presented here.

Please send the material to:
